SUMMARY
Software Development Engineer (Fresher) with shipped, measurable work. Looking for a role where I can own outcomes end to end.

EDUCATION
B.Tech, Anna University, 2021-2025, CGPA 9.08/10

SKILLS
Java, Python, Data Structures, Algorithms, SQL, Git, React, Node.js

EXPERIENCE
Software Engineering Intern at a fintech startup: shipped REST APIs in Node.js, wrote unit tests, fixed 30+ production bugs.

PROJECTS
- Built a full-stack hostel mess management app used by 500+ students
- Developed a CLI attendance tracker in Python with SQLite storage

ACHIEVEMENTS
- Won 2nd place at a national hackathon (800+ teams)
- Open-source contributor: 12 merged PRs across 4 projects
- Dean's list, top 5% of batch
